

# NICKEL ALLOY AND STAINLESS STOCKISTS AND PROCESSORS

Comprehensive stocks of sheet, plate and bar in a wide range of alloys and stainless grades.

State of the art cutting equipment enabling tight tolerances and to customer drawings and specifications.

Quality material,  
Quality service.

Our extensive inventory range includes Nickel Alloys and Stainless Steels in sheet, plate or bar form. We are also able to source other grades of material from a wide range of trusted mills and distributors. All of our material is fully certified.

To compliment our stock range, we offer a full range of additional processes, recognising the growing need of our customers to reduce costly scrap by buying finished sized material, either cut to length on state of the art saws, or laser cut to tight dimensional tolerances and to customers own drawings.

We have offices in Sheffield and York, with a well informed and knowledgeable workforce able to help with your requirements.

See overleaf for stock range and sizes

# NICKEL ALLOY AND STAINLESS STEEL PLATE AND BAR
